

Tehila Michaeli (Ben-Moshe)

Full-Stack Developer | Cybersecurity & AI

Objective

Full-Stack Software Developer with a B.Sc. in Software Engineering and a specialization in Cyber & Information Security. Experienced with React, Node.js, REST APIs, SQL, and backend integrations. Hands-on with modern AI technologies, including RAG, MCP, AI agents, tool calling, and prompt engineering. Highly motivated and curious, continuously exploring emerging technologies and AI tools and applying them to real-world development.

Education

B.Sc. Software Engineering

Lev Academic Center-Jerusalem | 2021-2025

GPA: 87

Main Specialization: Cyber & Information Security

Relevant Coursework: Operating Systems, Data Structures & Algorithms, Network Security, Cryptography, Object-Oriented Design, Full-Stack Development, Real-Time Systems.

Professional Experience & Projects

Full-Stack CRM & Website Platform | Independent Client Project

React, Node.js, REST APIs, SQL, AI-Assisted Development

- Developing an integrated CRM and website platform for a client.
- Building frontend, backend, APIs, database, and system integrations.
- Using advanced AI tools and agentic workflows for coding, architecture, debugging, and rapid development.

CRM Developer / Implementer | Digitize

Zoho CRM, Deluge, APIs, Integrations

- Customized Zoho CRM, including workflows, automations, custom functions, and external integrations.
- Worked directly with clients to understand requirements and implement CRM solutions.

Cyberattack Detection Using NLP & ML | CyberSafe

Industry Project

- Classified cybersecurity alerts using real-world log data.
- Used Sentence-BERT and LogBERT embeddings with SVM, Random Forest, and XGBoost classifiers.
- Applied dynamic preprocessing to handle unstructured and inconsistent log formats.

IsraFlight - Flight Management System | Academic Project

Python, ASP.NET Core (C#), SQL Server

- Developed a client-server flight management system with Python GUI and ASP.NET Core backend.
- Built REST APIs, SQL Server integration, real-time seat tracking, and external service integrations.

Hard Skills

Programming:

Python, JavaScript, TypeScript, C#, Java, C/C++

Full-Stack:

React, Node.js, Express.js, ASP.NET Core, REST APIs, SQL, Authentication, Client-Server Architecture, Zoho CRM, Integrations, Automations.

AI & Agentic Development:

RAG, MCP, AI Agents, Tool Calling, Prompt Engineering, Agentic Workflows, AI-Assisted Development

Cybersecurity:

Application Security, Network Security, Cryptography

Soft Skills

- Fast Learner
- Creativity
- Problem Solving
- Analytical Thinking
- Team Player
- Decision Making
- Work Under Pressure

Languages

- Hebrew - Fluent
- English - Proficient
